Teachers' Briefing

3D For Good Challenge is a newly introduced competition for this year, with the theme of "Hong Kong Culture." In teams of two to five members, participants need to create and sculpt models using software such as Nomad Sculpt, Blender or other 3D design platforms. The final works will be displayed after printing and coloring. Every school may nominate a maximum of 5 teams. This competition will also feature the "Teacher's Most Participating Appreciation Award", which will be awarded to the top 5 teachers who have nominated the most students.
